### 4. First Aid Measures

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CONTROL CENTRE or doctor.

IF ON SKIN (or hair): Wash with plenty of water. Take off contaminated clothing and wash it before reuse. Immediately call a POISON CONTROL CENTRE or doctor.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CONTROL CENTRE or doctor.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CONTROL CENTRE or doctor.

Symptoms of Acute Exposure :

Eye contact : Burns, redness, watering, pain, loss of vision.  
Skin contact : Severe burns, redness, itching, swelling, damage to underlying tissues.  
Ingestion : Burns, irritation and swelling to mouth, throat and stomach.  
Inhalation : Burns to nose, throat and respiratory tract. Coughing, difficulty breathing and/or shortness of breath.

## 5. Fire Fighting Measures

Suitable Extinguishing Media :	As for surrounding fire. Suitable materials include water spray, dry chemical, carbon dioxide, and alcohol-resistant foam.
Unsuitable Extinguishing Media :	Not available.
Specific Hazards and Combustion Products :	Non-combustible. Decomposition of the product releases oxygen which may intensify fire. During fire, gases hazardous to health may be formed. Combustion products include oxides of carbon, oxides of sulphur, oxides of phosphorus.
Protective Equipment and Precautions for Firefighters :	As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. Move containers from fire area if possible without risk. Keep containers cool with water spray. Collect contaminated fire extinguishing water and other media separately.

## 6. Accidental Release Measures

Personal Precautions :	Immediately evacuate personnel to safe areas. Provide adequate ventilation. Ventilate closed spaces before entering them. Wear appropriate personal protective equipment (See Section 8: Exposure controls / Personal protection). Only trained and properly protected personnel must be involved in clean-up operations. Material may create slippery conditions.
Containment and Clean Up :	Stop leak if it is safe to do so. Contain spilled material, where possible. Avoid dust formation. Use appropriate tools to put the spilled solid into a suitable closed container for disposal. Avoid dispersal of spilled material or contact with soil or entry into waterways, sewers and drains. Dispose of contents/containers according to local, provincial, and federal regulations. Following product recovery, flush area with water.

## 7. Handling and Storage

Handling :	Avoid contact with skin, eyes, and clothing. Use personal protective equipment as required (See Section 8: Exposure controls / Personal protection). Wash thoroughly after handling.
Storage :	Keep away from incompatible materials (See Section 10: Stability and Reactivity). Keep away from strong bases, strong acids, moisture, hypochlorites and chlorine-releasing compounds. Store in a cool, dry, well-ventilated place. Keep container tightly closed when not in use. Store locked up.
